

Debt Payoff Planner Worksheet

Use this printable worksheet to list your debts, choose a payoff order, plan monthly payments, and decide which calculator to use next. This worksheet is for planning and education only. It is not financial advice.

1 List each debt

Write balances, APRs, minimum payments, and due dates.

2 Choose an order

Compare snowball, avalanche, or a custom priority.

3 Plan payments

Map out the next 12 months and use calculators for exact estimates.

1. List your debts

Use your latest statement for each balance, APR, minimum payment, and due date. Leave any unused debt boxes blank.

Debt 1

DEBT NAME _____

BALANCE _____	APR _____	MINIMUM PAYMENT _____
DUE DATE _____	PLANNED PAYMENT _____	NOTES _____

Debt 2

DEBT NAME _____

BALANCE _____	APR _____	MINIMUM PAYMENT _____
DUE DATE _____	PLANNED PAYMENT _____	NOTES _____

Debt 3

DEBT NAME _____

BALANCE _____	APR _____	MINIMUM PAYMENT _____
DUE DATE _____	PLANNED PAYMENT _____	NOTES _____

Debt 4

DEBT NAME _____

BALANCE _____	APR _____	MINIMUM PAYMENT _____
DUE DATE _____	PLANNED PAYMENT _____	NOTES _____

1. List your debts

Use your latest statement for each balance, APR, minimum payment, and due date. Leave any unused debt boxes blank.

Debt 5

DEBT NAME _____

BALANCE _____	APR _____	MINIMUM PAYMENT _____
DUE DATE _____	PLANNED PAYMENT _____	NOTES _____

Debt 6

DEBT NAME _____

BALANCE _____	APR _____	MINIMUM PAYMENT _____
DUE DATE _____	PLANNED PAYMENT _____	NOTES _____

Debt 7

DEBT NAME _____

BALANCE _____	APR _____	MINIMUM PAYMENT _____
DUE DATE _____	PLANNED PAYMENT _____	NOTES _____

Debt 8

DEBT NAME _____

BALANCE _____	APR _____	MINIMUM PAYMENT _____
DUE DATE _____	PLANNED PAYMENT _____	NOTES _____

Totals

TOTAL BALANCE _____	TOTAL MINIMUM PAYMENTS _____	TOTAL PLANNED MONTHLY PAYMENT _____
---------------------	------------------------------	-------------------------------------

After listing more than one debt, compare payoff order here: [Snowball vs Avalanche Calculator](#)

2. Choose a payoff order

Rank the debts you plan to pay down. Snowball focuses on the smallest balance first. Avalanche focuses on the highest APR first. You can also choose a custom order if a debt has a special risk, due date, or stress factor.

Decision guide

- I want faster early wins - consider snowball
- I want to reduce interest - consider avalanche
- I need a custom order because one debt has a special reason to come first

Rank	Debt name	Reason for this rank	Extra payment target
1			
2			
3			
4			
5			
6			
7			
8			

After choosing the order

1. Pay the minimum on every debt.
2. Put any extra payment toward the top-ranked debt.
3. When one debt is paid off, roll that payment into the next debt in the order.

[Compare order online](#)

3. Plan months 1-6

Plan what you intend to pay each month. Cover minimum payments first, then apply extra money to the debt at the top of your payoff order.

Goal check

TARGET PAYOFF DATE _____	PAYMENT NEEDED FOR GOAL _____	CURRENT PAYMENT GAP _____
-----------------------------	----------------------------------	------------------------------

Month 1

TOTAL PLANNED PAYMENT _____	EXTRA PAYMENT _____
DEBT TARGETED FIRST _____	BALANCE AFTER PAYMENT / NOTES _____

Month 2

TOTAL PLANNED PAYMENT _____	EXTRA PAYMENT _____
DEBT TARGETED FIRST _____	BALANCE AFTER PAYMENT / NOTES _____

Month 3

When your payment changes

If your payment can increase later, compare the difference before adjusting the plan. [Extra Payment Calculator](#)

4. Check lower-rate options

A lower APR can help, but fees, promo length, payment size, and payoff time still matter. Use this checklist before choosing a balance transfer or consolidation loan.

Balance transfer checklist

- Transfer fee: ____ % or \$ ____
- Promo APR: ____ %
- Promo length: ____ months
- APR after promo: ____ %
- Payment needed before promo ends: \$ ____
- Will it save money after the fee? Yes / No

[Balance Transfer Savings Calculator](#)

Consolidation checklist

- Loan APR: ____ %
- Loan term: ____ months
- Origination fee: ____ % or \$ ____
- New monthly payment: \$ ____
- Total interest and fees: \$ ____
- Will total cost go down? Yes / No
